DESIGNING A GARDEN: NEW AND OLD

Stephanie Morris, guest speaker at our upcoming February 2nd meeting, insists that designing a garden from scratch or renovating a tired one need not be a daunting task.

Stephanie's **Ten Tips for Success** are anticipated to move us easily through the design process. As well, we should anticipate being exposed to fresh ideas, including "before" and "after" examples, to inspire our dreaming of spring projects while snow still covers the frozen ground.

Stephanie holds BA and Masters degrees from Concordia University in Montreal and a Certificate in Landscape Architecture from Ryerson. She taught Plant Materials and Landscape Design at Sheridan College for seven years and has more than twenty years of garden design and consultation experience in the GTA. An engaging speaker at venues that include Canada Blooms, the CNE and the Perennial Plant Association, I anticipate Stephanie will incite some gardening enthusiasm in us at a time when we are enduring the winter cold.

Photographers Wanted

Please let Jennifer Linton know if you are willing to take photographs during one of our general meetings. She is planning to set up a monthly roster of volunteers to record people and events. Call Jennifer at 905-737-4172.

Start Shooting Now

The Board of Directors would like our members to start thinking about snapping pictures for Photography Night. If you see any interesting subjects we hope you will be entering your pictures in our competition in August. Don't forget one of the winning photographs will be chosen to be on the cover of the 2011 yearbook. More info to follow at a later date.
