

Image	Title and Author	Synopsis
	Terrariums & Miniature Gardens by Kathryn Arthurs	(Abe Books) A Sunset Guide for terrariums and miniature gardens. With nice index of b&w photos; useful.
	Gardening in Containers by David Clark	No description available at this time.
	Plants in Pots by Andi Clevely	(Abe Books) This stylish and simple guide shows you how to make effective and changing plant displays in containers, and maintain them with ease.
	Potted Gardens by Rebecca Cole	(Amazon) Rebecca Cole--once an actress/activist and now the owner of the trend-setting Greenwich Village store Potted Gardens--introduces a whole new way to garden. Using any container--from the bed of a toy truck to a bedpan--and any kind of plant--from rose to weed--would-be gardeners can follow Rebecca's guidance and plant a bit of beauty in a corner of their homes or gardens.
	Indoor Plants by Jane/Graham Courtier/Clarke	(Abe Books) From its fully illustrated, meticulously detailed directories of indoor plants to its inspiring ideas for using plants to enhance any setting, "Indoor Plants" makes it easy to turn a window sill, a corner, or even a whole room, into a delightful garden spot.
	Gardens To Go by Sydney Eddison	(Abe Books) A beautifully illustrated introduction to the art of container gardening explains how to design, coordinate, plant, and care for a container garden, with special tips on color and texture, informational sidebars, cultivation tips, sources for gardening supplies, a guide to plant hardiness zones, and two hundred full-color photographs.
	100 Plants for Pots & Containers by Mary Moody	(Abe Books) Each title in this series presents 100 of the best plants to suit a specific need, providing detailed guidance on the cultivation of each variety. This volume describes a wide range of attractive varieties that are ideally suited to pots, troughs, sinks and other containers.
	Houseplant Basics by David Squire	(Abe Books) A house is just not a home without a lush selection of plants. Most houseplants don't demand much time or attention, and they can look attractive for years...when treated properly. If you love the idea of showing off a healthy, flourishing indoor garden (like the ones pictured here), then these are the basics you must know for cultivating happy plants. To get the most from them, it's important to understand how similar species live in the wild, and to meet their compost, lighting, humidity, and temperature needs in both winter and summer.
